**CURRENT AWARENESS, NEWS AND OPINIONS.**

**SO MUCH CONTENT**

Custom UK Online Newspapers offers over 10 UK national and regional titles (with Sunday counterparts), with all the key quality press, including the *Financial Times*, as well as tabloid titles, available for selection. Customisation of content is easy, with the option to alter your selection at no extra cost at any time. Both daily and Sunday editions are included for each title.

Full details of titles included can be found at [www.galeuk.com/customuk](http://www.galeuk.com/customuk)

**DEPTH OF INFORMATION AND CURRENCY**

Backfiles go back as far as 1996 in many cases, and 1985 for *The Times*. The database is updated daily, with articles appearing a maximum of 48 hours behind the printed edition, though for many papers the previous day's edition is available by the afternoon of the following day.

The full text content of the newspaper is included. Only images, advertising, syndicated and certain free-lance articles, such as obituaries, are excluded for copyright reasons.

Our user-friendly interface allows the novice user to perform a basic search without instruction and also allows for more complex advanced searching. A single title can be searched, as can a pre-determined range of titles or the whole selection.
