

World's Major Companies Series

CUSTOM DATA FEEDS

Bespoke cuts of data can be prepared to specific requirements. A selected range of company, financial and personnel information is made available from our database of public, private and state owned companies in over 200 countries worldwide. Selections are made according to individual criteria - by region, sector, company type, executive type etc. Companies can also be ranked by revenue or other preferred fields. Named senior officers such as Chairman of the Board, Finance Director, Purchasing Director etc can be selected. Data is then sent in Excel format either by email or on cd-rom. Please contact us to discuss your options.

Graham & Whiteside, an imprint of Thomson Gale, is the leading supplier of high-quality international business and professional information. Essential reference tools for many international corporations and business libraries, its directories offer quality data that is second-to-none.

The Major Companies directories provide quality company information on the leading businesses worldwide. Entries include company name, address, telephone and fax numbers, email and web addresses, names of senior management and board members. In addition to contact details, the data provided for each company typically includes principle activities of the company, brands and trademarks, parent company, subsidiaries, financial information for the past two years, principle shareholders, number of employees and ticker symbols.

This latest edition of the series continues to carry the **Graham & Whiteside** stamp of quality and sets the standard for authoritative company information.

2007/2008
